CERTIFICATES

THE COMPLETE JAVASCRIPT COURSE 2023 : FROM ZERO TO EXPERT!

NODE.JS, EXPRESS, MONGODB & MORE: THE COMPLETE BOOTCAMP 2024

WORK EXPERIENCE

NGP Websmart Pvt. Ltd - Backend Developer Intern　7/2024- 12/2024

- Built a Performance Management System for 50+ employees, improving goal tracking and reducing manual reporting by 40%.
- Engineered RESTful APIs using AdonisJS and PostgreSQL, facilitating seamless data exchange between the Performance Management System and front-end, serving 50 internal users with 99.9% uptime.

Frontend Developer Intern - Rohini Tech Media Pvt. Ltd　10/2022- 01/2023

- Contributed to a Web3-based application, building responsive UI components using React.js and Tailwind CSS.
- Participated in internal workshops on frontend best practices and Web3 integration.
- Gained hands-on experience in technical documentation, improving workflow clarity for future developers.

PERSONAL PROJECTS

Interview helper using AI

- Built an AI-powered mock interview web app using Vue.js and FastAPI
- Integrated Gemini model for dynamic Q&A and concept-based question generation
- Developed an automated question-generation system for book uploads using Prisma and AI reasoning, reducing manual content processing time by 40 hours per month while enhancing user engagement through tailored queries.

InsightFull Invoices

- Personalized invoice generation app for a catering service company
- Developed the complete backend of the app using NodeJs
- Constructed user interface components and application screens with React Native and Tailwind CSS, accelerating the front-end development by 30% and improving UI consistency.

Admin Portal - Kurukshetra

- Contributed to the backend functionality for college festival admin portal using TypeORM and PostgreSQL.
- Implemented filtering and ordering features for efficient data management.
